### Pre-Run Briefing

As a result of overcast skies and some heavy rain earlier in the day the hounds that showed were the more hardy hashers to give credit to the Hares work in setting trail...As the pack gathered the skies threatened to unload more precipitation but this was the case. The Hares Brambles Bill and Jock Twat were called in to give the customary run briefing. Two trails this week, the walkers flat and around 4.6 km and the Rambo's a little longer with a small speed bump. No cows, no barbed wire or electric fencing. A few yappy dogs but not a problem. Paper on the right but may have been flattened into the ground as a result of the earlier rains.

### The Trail

The pack set out at 5:00 pm with the rain holding off and heading in a westerly direction and onto some familiar looking territory from last Saturday's Cha-Am run. However, the paper was readily visible, and the trail veered to a more southerly direction. Some excellent checks allowing the

walkers to catch up with the FRB's. Mudman, Cock in a Frock and Scrubbers Bugger getting them wrong and Onefer getting them right. On we went making left and right turns skirting pineapple fields until we reached the Run/Walk split after 2.6 km. The walkers going left and the runners to the right. It now became obvious why the walkers trail was flat and the Rambo trail more of a

challenge as we approached the speed bump. The trail contoured lower round the hill skirting pineapple fields. But the FRB's missed the turn towards the hills. The slower Rambo's were observant and continued on trail. The trail then led left into the tree growth and headed on uphill and coming out on a wide trail that continued uphill to a check. At this point the trail headed back downhill and the skirted round the north side of the hill heading towards the Safari Park. An incorrect On ON call lead to a check back and the it was downhill along a pineapple field to the merge point. Shortly thereafter I saw many hashers in the field wandering around and it became obvious when I saw the trail had taken a sharp right turn with three drops of paper low to the ground. This resulted in a lot of cutting across fields for off trail hashers to get back to the true trail. The trail led in a northerly direction to a familiar point from last week's Cha-Am trail. The Trail went right and headed towards the Greenfield Fishing Resort before heading left and

skirting the fishing pond and then right past some yappy dogs and to the ON HOME sign and back in on the out trail. For some reason Cathusalem missed this sign and went left and back out on the trail again.

### **Pre-Circle**

Although the rain had stayed away during most of the trail some light drizzle started to fall as the hound return to the start point. However, the cold beverages were awaiting to be drunk and the crisps to be eaten. CiaF and Patty made an early departure as they were on the bike this week. They were followed shortly thereafter by Onefer, Slime and Lucky MOe prior to circle time. Around 6:30 Tinks called the circle to order although Cathusalem was still not home and with Brambles and DaL back out on trail to see if they could find him, although he was in phone contact.
