Pre-Run

A return to Hashing after a 7 week absence due to Covid-19 Restrictions and to a favorite Ballbanger location at Hupkapong Dam. The weather was being kind although overcast it was dry. With the new earlier 4:30 start 26 Hashers had gathered and Donga called the Hares into the circle for a pre-run briefing. Ballbanger was absent at this time so GI Joe provided the briefing. Usual markings paper on the right but no checks. A warning about yappy dogs near the temple but other than that just one rambo walk split.

The Trail

The trail led out in the northerly direction for the first time in a long while from this location skirting the lake and ending up on a road. A left turn and then a long straight past the temple and the dogs and a meeting with Ballbanger directing walkers left and Rambos right. Another straight section before turning left and following the base of the hills before another left turn. The trail continued until paper could be seen of to the left as well as continuing straight. It soon become apparent as to why the trail to the left was visible as the trial led to a

steep drop into a water course so ended up skirting this until it was crossable safely. The trail came out onto a wide track and ended up back at the rambo loop split point. From here it was continue on the walkers trail back to the lake and back to the cars.

Pre-Circle:

While we made small chat about the trail and consumed our refreshments and snacks the usual late arrivals Slime and Lucky Me completed the trail having been advised on the correct start direction by Golden Delicious. They then offloaded shredded paper to Brambles, Onefer and upcoming Hares. Shortly thereafter Donga called the pack to order for the post run Circle.
