Hares: Hugs and Cute Comer

Biermeister Team: Jock Twat, Rambling Rose & Honeymoon

Ice Man: Tinks

Tax Collector: African Queen

Number of Hashers: 36

Hashers enjoying some mild weather natter were amazed to see Slime and Lucky Me arrive before Hugs and Cute Comer stepped up to explain the trails. Apparently LM drove like a maniac to arrive on time as they collected four Swedish visitors, white knuckled as they gazed upon their first Hua Hin Hash gathering.

Hugs had sent out a promo video of the same area from 8 years ago to whet the appetite and attracted 36 hashers to make the effort.

Without Sodomy, Flying Froggy, Cock in a Frock or Mudman, it was up to Bite Mark and Easy Off to do the front running. Though the latter was quite content to leave the checking to Bite Mark. While he took off in the wrong direction, the next lot of runners -

Scrotum Head, Honeymoon, Comes Short Time and two of our visiting Swedes pretended to be checking in ever decreasing circles.

soon tired and likely lurked in the bushes for the next comely maiden.

The serenity of the glorious countryside with well marked trails was somewhat disturbed by the sight of Cute Comer, running hard, being pursued by a frenzied Smelly Fingers, who

abruptly altered with the Rambo loop - tough shitty bit which left your humble scribe stuffed of exhaustion, well kind of. So in this light surreal to come across Galadriel and Frodo forest. Of course, it turned out to be none other young son.

Onefer hit the deck hard on a loose rock, just as he was about to get on terra firma for the sunset stroll On In. Matron wrapped him up before he headed home for a few stiff drinks. Onefer says he's fine, just a flesh wound and hopes to make it next Saturday.

Walkers Trail set by Hugs and Cute Comer was 6.3 km in a moving time of 81:53 minutes

Start to RW Split: 0.6 km in 7:50 minutes

RW Split to RW Merge: 0.1 km in 1:20 minutes

RW Merge to Finish: 5.6 km in 72:43 minutes

Elevation: Min 118 m, Max 194 m, Gain/Loss 150 m.

Maximum Slope: Ascent 24.0%, Descent 15.0%.

Rambo Loop according to Hugs was 2.24 km

Elevation: Min 134m, Max 187m, Gain 78m, Loss 61m.

Maximum Slope: Ascent 20.7%, Descent 23.9%.

Trails went clockwise.

The pre circle gathering was very relaxed in pockets of 4s and 5s as they waited for the last lot to come in – African Queen along with the usual suspects of Slime and Lucky Me, who couldn't help getting back to form. The Circle convened with the light fading and anticipation in the air.

Down Downs

Hares: Hugs and Cute Comer – After Hugs explained how reliant he was on Cute Comer for their civic trash collection, both trails were given excellent ratings even as Hugs apologised for the severity of the mountain climb in the runner's loop. Easy Off gave 10/10 for the runners and as did Last Orders for the walkers, though he was not used to such a long trail.
